

TRANSPORTING CHILDREN SAFELY WORKSHOPS

Kidsafe NT provide workshops for professionals who are required to transport children in their workplace.

On completion of our 3 hour workshop you will have

- A better understanding of NT Child Car Restraint legislation
- Confidence to following the “best practise guidelines”
- Learnt installation techniques for restraints suited to children aged 0 - 7 years.
- Practised fitting child restraints for maximum safety
- Become familiar with both rearward facing, forward facing restraints and Booster seats.

If you have a specific child restraint you use in the workplace you are most welcome to bring it along for us to practise with.

If you have work vehicles, we can also do the fitting practise in them. We recommend comfortable clothing and suitable footwear.

For more information please contact Megan Fernando at Kidsafe NT on (08) 89418234 or nt@kidsafent.com.au
